

Buy the Sunglasses Tom Cruise Wears in Rain Man

The Ray-Ban RB2156 New Clubmaster Sunglasses 49 mm, Non-Polarized, Black/G-15 (Eyewear) would make a great addition to your collection of accessories if you love celebrity-inspired fashion items. These vintage shades are similar to those worn by a young Tom Cruise (acting as Charlie Babbit) in the 1988 “Rain Man” film. Tom made these vintage Ray-Ban sunglasses iconic fashion accessories in the 80s and Ray-Ban continues to reintroduce these shades, which have retained their appeal in today’s contemporary fashion world. Let’s delve into the specific features that make these shades special.

Strong Design

The long lasting frame components featured in the RB2156 Clubmaster II sunglasses guarantee you years of dependable use. For the temples and upper frame, the professionals at Ray-Ban have used a durable plastic acetate material. These shades are reinforced with metallic frames on the lower side of each lens. With this combination of durable materials, you can be sure that these beauties will not break easily. They even come with a manufacturer’s warranty that lasts for one year from the date of purchase.

Complementary Accessories

Packaged in a sleek carrier pouch, these shades are easy to carry when you’re not wearing them. The protective leather hard case is small enough to fit in your pocket. What’s more, a cloth for wiping the lenses is included. The best part about these additional accessories is that they come at no extra cost.

UV Rays Protective Coating

Ray-Ban has built a reputation of putting optical health first when designing most of their sunglasses, and the RB2156 new Clubmaster II is no exception. You can protect your eyes with these shades thanks to the UV ray protective coating added on each lens.

While these sunglasses are non-polarized, they come with the proprietary Ray Ban G-15 green gradient lens technology which absorbs up to 85% of visible light.

Comfortable to Wear

The acetate-metal framing does not bulk up these shades. In fact, the sunglasses only weigh 3.2 ounces. They are very comfortable to wear and come with nose pads for added grip.
